II. OTHER ITEMS

1. [redacted] met with [redacted] CI Staff, and members of the A&E Staff to discuss his previously reported trip to Miami where he interviewed [redacted] psychologists and psychiatrists. [redacted] 25X1A9a
 vised [redacted] to continue his contacts in a manner consistent with his cover. One of the [redacted] psychologists will be met by [redacted] 25X1A9a
 future and requests will be made for him to provide information of the type needed for our study. 25X1A9a

2. [redacted] departed for Miami on 17 October 1962 to start the assessment [redacted] requested by WAVE in a cable this week. [redacted] 25X1A9a
 will depart for the same project on 21 October. Both individuals will return to Washington on 27 October.

Since this team will not complete the 50 assessments, another team will have to be sent down to replace them. C/A&E met with [redacted] 25X1A9a
 and [redacted] /TSD on 16 October at which time the involvement of TSD psychologists was discussed. It was agreed that one individual, probably [redacted] 25X1A9a
 would be available to go to Miami on about 28 October for a two week TDY. [redacted] 25X1A9a
 requested that he be accompanied by a member of our staff who has previously been on this project.

[redacted] had lunch with Dr. [redacted] Director of [redacted] 25X1A
 [redacted] October at which time Dr. [redacted] proposed visit to OTS 25X1A
 was discussed (Weekly Report No. 25, Item 4). Dr. [redacted] said he could be available any time during November but that he really felt that he should

inform his own sponsor of his visit to the Agency before he proceeded. He even suggested that we write a letter requesting that he brief us.

██████████ informed ██████████ that C/A&E would be calling him in the near future to make arrangements. ██████████ requested ██████████ try to assure Dr. Crawford that a letter to the sponsor probably was not necessary. Guidance is requested as to whether DTR wishes to pursue this matter if ██████████ requests that we write a formal letter to his sponsor (whether the sponsor is ██████████ the home of ██████████ or the Army is not known at this time).

4. ██████████ completed the preparation of five copies of the programmed training aid, "Observation and Description (Persons)", which has been in process of reproduction and assembly since March. This program, 581 frames long, is designed to improve the trainees' ability to observe and describe a person's outstanding physical characteristics, his race, body build, height, and age. It has developed through a series of tryouts, and subsequent revisions, with a total of 18 students. Further tryouts may be required to adopt it to particular student populations, but it has seemed to work well with those who tried it so far. Three copies were delivered to Chief, CC/OS/TR and one copy to Chief, TAS/OS/TR for their comment about its possible usefulness in their own training programs.

5. In a meeting between ██████████ of NPIC, and ██████████ of OTR, ██████████ recommended against adopting a proposal ██████████ for developing a training curriculum for NPIC and suggested instead the use of the ██████████. The possibility of making use of ██████████, a small but apparently outstanding group of behavioral scientists who have already done some work for NPIC, was suggested by ██████████. Because at least one of this group is already cleared for TOP SECRET and has had some exposure to NPIC photo interpretation problems, ██████████ could perhaps speed the development of the training package by helping ██████████ with the job analysis during the 90 days that ██████████ people will have to wait for TOP SECRET clearances.
